

Construction CPM Conference News

10nov16 Vol. 2017 No. 11

Swan & Dolphin Resort, Disney World, Florida
JANUARY 10-11-12-13, 2017

With the uncertainties of the election season behind us, both industry and government agencies are gearing up and calling for increased assistance from design and construction professionals. Get it done safe, get it done correctly, and get it done quickly. The need for our skills and services is about to explode. Let us all gear up with the latest skills on our improved products. Come to Construction CPM Conference. Go home with "how to use" skills on three or more software solutions. Go home with additional competences to extend your services to employer or client.

Hotel rooms are filling – [reserve now](#) to assure your choice at Swan or Dolphin.

For those desiring One-on-One assistance with Oracle Primavera products, it is time to get on the [Clinic reservation list](#).

Our "[dance card](#)" is mostly filled, but we still have a few session slots for "how to" on software, best practices or to showcase your project success.

We still have a few [exhibit table locations](#) available, as well as [sponsorship opportunities](#) including breakfasts, lunches and breaks. A [half page ad](#) in the conference booklet is \$150. A posting on our [corkboard](#) is free.

Our program is recognized by most states for 22.5 hours of continuing education for professional engineers. PMI accepts 22.5 hours for certification. The [Florida Bar recognizes our program](#), last year for over 20 hours including 5 for ethics. We expect a number of Florida attorneys to join us to get needed credits, and network (shop) among the world's top scheduling professionals (that's us!)

Ron Winter and Marina Sominsky request your help for ongoing research:

Two IT professionals and expert schedulers are surveying the prevalence and nature of corruptions in the P6 database and hope to publish the results of an industry-wide survey in Part 2 of their paper on this subject. You can help them by going to http://www.ronwinterconsulting.com/Research_P6_Corruption.htm.

We are working with [Mandara Spa](#) within the Swan & Dolphin resort to enhance your visit. If group attendees mention they are with the Construction CPM Conference while scheduling their appointments, they will receive \$20 toward their spa service with a service(s) of \$100 or more.

Don't forget – if you buy your [Disney Park tickets](#) now, you can get first in line to begin [FassPass](#)+™ reservations 60 days in advance.
