

# Construction CPM Conference News

01dec20 Vol. 2021 No. 16

In the Cirrus Cloud, Planet Earth JANUARY 19 – 21, 2021  
Perhaps return to Orlando January 16 – 19, 2022

## A Pandemic Too Far?

**Does another set of Zoom meetings do it for you?**

**We recognize that the biggest thing your conference provides is the ability to rub elbows with fellow Project Managers and swap stories and get ideas on problem solving in the Project Management space. We are trying to replicate virtually, but are coming to the conclusion that the ability to duplicate this conference feature is impossible outside of an in person conference agenda. Sure the sessions are great but it's that one-on-one discussion around a stand-up table at an evening event that is precious and unique to your conference.**

**And so we now must suggest it may be better to tell everyone to hunker down, stay safe, and take a year off and that you and the conference will be back in 2022 bigger and better than ever.**

**Registered Attendees will be given an Option for prompt refund via PayPal, or rolling for deep discount for 2022. We will try to provide extra content and benefits for all of 2021. Most exhibitors have already chosen to roll to 2022 while remaining on our website as a sponsor, post a link to company website or YouTube featurette, and other benefits for all of 2021.**

**We will continue in coming weeks to collect content including presentations as Voice-over-PowerPoint or other saved Demonstrations of softwares, and may yet be able to provide a limited number of the same Zoom style presentations before or after or on January 19-21, 2021.**

**We will facilitate a similar Exhibit Hall experience as provided by other conferences, but do not feel we have enough people yet signed (nor feel enough may yet sign) to support our curated exhibit hall experience of vendor to five-similar-attributed Attendee. If we cannot do it best, then best to not provide a sub-par experience.**

**Please continue to check out and consider the services of our Diamond Sponsors, [Drexel University Department of Systems and Engineering Management](#), and [InEight](#), as well as our [listed exhibitors](#).**

**Thank you for ten wonderful years, and hopefully another ten or more wonderful years once we are past this pandemic rain cloud.**

**So, to recap:**

**2021: hunker down, stay safe, and take a year off. Keep sharpening your Project Management skills and expertise. Keep reading this Construction CPM Conference News Letter for possible live Zoom style presentations and pre-recorded content (voice over screen with PowerPoint or software demonstration) that might materialize.**

**2022: the conference will be back in 2022 bigger and better than ever. Stay safe & stay tuned. Fiftieth anniversary for Disney World will be in full swing.**
