My class at Temple University has completed first midterm and all students are now conversant in navigation of multiple software solutions.

Phoenix Project Manager, Deltek Open Plan, Elecosoft Powerproject, Oracle P6. Students have downloaded Full, Student or Demo versions, navigated to a specific activity and reported the Early Start date of each. Future assignments will confirm mastery of other navigation and software features. Most are Seniors. Are you hiring?

Our Dine with Five New Friends™ program is honing in on choices for 2021. We have seven restaurants and will run this program for both Monday and Tuesday evenings. We are building our Program see <http://www.constructioncpm.com/At-A-Glance/>. As usual most sessions are by invited Speakers, but we always are looking for new topics and presenters. If you care to share knowledge, contact info@constructioncpm.com.
