

Construction CPM Conference News

01JAN21 Vol. 2021 No. 20

In the Cirrus Cloud, Planet Earth JANUARY 19 – 20, 2021
Returning to Orlando January 16 – 19, 2022

Farewell to 2020 – Looking to 2022

CCC (Construction CPM Conference) and the Plotnicks are saddened to announce the [passing of James J. O'Brien, PE PMP](#), 20oct29 to 31dec20.

We have this year lost many others of our Community as well as personal family and friends including [John Livengood](#) last June. Many are also facing financial hardships as clients, customers and employers cut back in these uncertain times. We at CCC have lost over 100 of you in just the past few months as GoDaddy reports your email address has bounced, typically a sign of change or end of employment. Will the discovery, production and distribution of the Covid-19 vaccine reverse this trend? Time will tell but we still have some challenging months ahead. We of CCC will continue to solicit content of our Community and post free for our past Attendees (or for that manner any who navigate to <http://constructioncpm.com/>) as we believe knowledge belongs to the Authors and is to be shared.

Construction CPM Conference hosts second Zoom event

Those who have [registered](#) for our 2021 virtual conference, as well as all who registered and attended [our last live 2020 event in Orlando](#), will be invited to our next Zoom event, Networking with Old and New Friends™.

Remember from our registration pages where we asked you to click to record your technical society memberships, industries served and software tools used? Look for our upcoming email inviting you to join others who clicked as you clicked. All share something with someone. Some of you will have options.

Please visit http://constructioncpm.com/At-A-Glance/at_a_glance2021a.htm to see new and quite a bit of old content posted. I have posted many previously recorded presentations in the Best of Jim O'Brien Track, keynotes by John Livengood and others, two Great Debates, several Mock Trials, and even a Best of Plotnick Track. Navigate to Tuesday January 19th at 11am and 1230pm (EST, or 8am and 930am PST) to view [Jim Zack's](#) presentations: [Are Arbitration & Litigation Too Expensive? - Dispute Financing May Be The Answer](#) and [Suspend Work - Remain On Standby - 3 Key Words](#). Beyond the "live" videos, and PDFs of the slidesets, you should read Jim's three White Papers supporting his presentations. Get your MS in Construction Management here at FRED's University! Those who do register for our 2021 virtual conference will also be invited to join in Zoom meetings on January 19-20 2021 for latest comment by Authors and live Q&A.
