

Construction CPM Conference News

01MAY21 Vol. 2022 No. 3

Returning to Orlando January 16 – 19, 2022

Announcing Continuing 2021-22 Events

Orlando Area resorts have been slow in moving our negotiations along as all struggle to see who will be willing to travel to a non-essential meeting and even as to who will still be in business. Our 2020 B Resort venue says they are now hosting weddings up to 75 attendees (or more with restrictions) while Disney has shut down its Group Sales unit for reserving views at EPCOT and such. We are all waiting to see how the summer unfolds as to whether we can host our vibrant “CCC” Construction CPM Conference this coming January. But we do have “hold the date” arrangements for multiple scenario. Since we must bus from B (or others) we are not limited to Disney entertainment for Tuesday evening. While normally we are set by now in May, we now may consider all options. Just as you must now do with your projects.

We suggest you reach out to your boss (employer or spouse) and reserve the dates January 14 to 19 (including a few days before for a little recreation) with the hope that we may all resume our CCC of the past decade. We also are holding off on Early Bird deadlines for Advance Registration until we see how our nation and world are recovering.

Reminder of the several Association and Software Developer Events now being planned, posted and now open for (at least advanced) registration. Two of note:

- **AACE 2021 Virtual Conference & Expo + Boston Retreat** with virtual sessions June 14-18 (<https://web.aacei.org/conferences-events/2021-aace-international-conference-expo>) with **AACE 2021 Boston Retreat** for a limited audience June 21-23.
- **2021 NetPoint + GPM Conference** for May 13-14 of two days of virtual content (<https://web.cvent.com/event/12ec1c6e-ecf7-4b93-9163-2800047021aa/summary>)

PMA NetPoint has been a Special Exhibitor and Sponsor of CCC (Construction CPM Conference) since our inception in 2011, holding several co-joined LIVE events before, during or after our conference in January before embarking on an independent event. We encourage all CCC Attendees to register and visit the PMA event this May, and then return to visit their booth at our next live CCC event.

With so much virtual and online content being shared, we are holding back upon posting more at this time to static scheduled presentations, but may share content to be followed by “live” synchronous Zoom style Q&A with the Speaker Authors in the coming months. We also hope to host additional Small Zoom Breakout Sessions for Groups of Attendees of Similar Affinities, such as USE of a specific software product or feature, WORK within a specific industry, or MEMBERSHIP in a technical association, or even RESIDENCE in a similar geographic location (noting again all of those questions you are asked during our CCC Registration App.)

Continuing issues with GoDaddy server migration and such have delayed our rollout of additional online events, but watch these newsletters for upcoming news. It appears our original thoughts on bringing those with similar demographics together for small Zoom-style face-to-face meeting are now being duplicated by others. This is yet another area where we may expand while still hoping to return to true F2F events.

Be well – get vaccinated and yet maintain safe conducts – enjoy life.
