

Construction CPM Conference

RENO Nevada

January 18-19-20-21 2026

Welcome to CCC26

What is News?

News for our Community includes what topics are covered and what topics are not covered at our Construction CPM Conference 2026. We have a large number of sessions relating to AI or Artificial Intelligence, and Panels such as "Engaging the Next Generation of Schedulers."

We continue to have sessions where Users of software share "how to" "tips & tricks" and beauty and warts. But far fewer of sessions presented by the software providers.

This is significant in stating the priorities of these entities has continued to move beyond Users to Specifiers, or SOFTWARE DEVELOPED FOR SOFTWARE DEVELOPERS ONLY.

We were created by FRED to be a replacement for the USER conference on one, and then multiple softwares. But somehow we are morphing to something else.

We will host THREE Town Halls for the major Softwares, but none led by employees of those entities, rather to be led by YOU. We will record. MAYBE again be a voice. But are any of the Developers going to choose to hear us?

And THIS is our Updated and Ongoing Mission.
